

Who has the drop on your keys?

Dropped off keys are vulnerable. The keydrop box defies even the stickiest of fingers. Secured behind a letterbox or other drop off point, it offers effective protection, keeping keys safe and sound until they are in the right hands.

- Only allows access to keys by authorised personnel
- Securely retains keys to eliminate theft
- Cuts hassle and cost of replacing valuable keys
- Be confident that no-one has unauthorised key access
- Robust and manufactured in sheet steel
- Door or wall fitting kits available
- May reduce insurance premiums and liability
