CCKEYS
Key Management Solutions

Electronic Code Lock

Faster programming

Easy to use

Battery power

Access control made easy. The Electronic code lock provides secure and convenient access to your CCKEYS system.

- *Ability to programme new codes without removing the lock from the door.*

- *Allows greater control for the manager and makes it much more likely that codes are changed on a regular basis.*

- *80 user codes*
- *Low battery warning*
- *Power 2 x 1.5v AA cells*
- *Key override*

Leading the way in key management
